THE REPORT OF THE

PUBLIC HEALTH INSPECTOR

(F. HOLMAN, M.A.P.H.I., C.R.S.H., C. Inst. P.H.E.)

For the Year 1969

POCKLINGTON RURAL DISTRICT COUNCIL

ANNUAL REPORT FOR 1969

Public Health Officers of the Authority:

Medical Officer of Health

W. WILSON, M.B., B.Ch., B.A.O., D.P.H.

Public Health Inspector (and Surveyor)

F. HOLMAN, M.A.P.H.I., C.R.S.H., C. Inst. P.H.E.

Additional Public Health Inspector

G. LISTER

Pupil Public Health Inspector.

N.J. FOSTER

Divisional Health Office,  
Burnby Lane,  
Pocklington.

Tel: Pocklington 3226

To the Chairman and Members of the  
Rural District Council of Pocklington.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting for your consideration my Annual Report on the Health and Sanitary circumstances of your area for the year, 1969.

There are no matters on which I wish to make special comment this year.

I should like to express my thanks to the Members of the Council for their support, to the Officials for their co-operation, and to the Chief Public Health Inspector for his help in preparing this report.

I am, Ladies and Gentlemen,

Your obedient servant,

Medical Officer of Health

# STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area (in acres)	..	101,521
Number of inhabited houses (approx.)	..	5,287
Registrar-General's estimate of home population	..	15,240
Rateable Value	..	£336,952
Sum represented by a penny rate	..	£1,280

## VITAL STATISTICS

<u>Live Births</u>	<u>Male</u>	<u>Female</u>	<u>Total</u>

Prevalence of and Control over Infectious Disease

The following cases of infectious disease have been notified during the year:-

Acute Meningitis	..	..	1	(Nil)
Dysentery	..	..	9	( 1 )
Erysipelas	..	..	Nil	( 2 )
Food Poisoning	..	..	1	(13 )
Infective Jaundice	..	..	1	( 1 )
Measles	..	..	Nil	(75 )
Tuberculosis (Pulmonary)	..	..	Nil	( 1 )
Tuberculosis (Other)	..	..	Nil	( 1 )

(Cases occurring in 1968 are shown in parenthesis)

TUBERCULOSIS

No cases of Tuberculosis were notified, or came to notice during the year.

Vaccination against Smallpox

The following table shows the number of persons vaccinated, or re-vaccinated, during the year, 1969.

Age at date of Vaccination	Under 1	1 year	2 - 4	5 - 14	15	Totals
Number Vaccinated	6	41	54	9	1	111
Number Re-vaccinated	-	-	2	48	10	60

### IMMUNISATION AGAINST DIPHTHERIA

The figures for immunisation carried out during the year are as follows:-

#### Primary Immunisation

<u>Aged under 5</u>	<u>Aged 5 - 15</u>	<u>Total</u>
122	1	123
Re-inforcing or 'booster' injections		- 115

Of the 122 children under five years of age, who are shown as having been immunised against Diphtheria, 120 were, at the same time, immunised against Whooping Cough.

### POLIOMYELITIS

A total of 150 children between the ages of 7 months and 15 years were given primary courses against poliomyelitis. A further 229 were given booster or reinforcing doses.

### GENERAL PROVISION OF HEALTH SERVICES IN THE DISTRICT

#### Nursing

A domiciliary nursing and midwifery service is available throughout the district, as part of the County Council's scheme under the National Health Service Act.

District Nurse/Midwives are stationed at Pocklington, Market Weighton, Bubwith, Driffield and Melbourne.

#### Laboratory Facilities

Bacteriological samples are examined at the Public Health Laboratory situated at Hull.

Routine samples of water are sent to this Laboratory for examination.

## GENERAL PROVISIONS OF HEALTH SERVICES IN THE DISTRICT (contd.)

### Treatment Centres

Child welfare clinics are held fortnightly at Pocklington and Market Weighton, and monthly at Stamford Bridge, Wilberfoss and Barmby Moor.

Relaxation Classes are held weekly in Pocklington and Market Weighton

Orthopaedic Clinics are held at York, Driffield and Beverley.

Tuberculosis Clinics are held at Driffield, Beverley and York.

Venereal Disease Clinics are held at York and Hull.

Cytology Clinics are held in Pocklington.

An Ophthalmic Clinic is held monthly at Pocklington.

### Ambulance Service

Ambulances based at Pocklington are available.

### Hospitals

General medical and surgical cases are admitted to hospitals at York and Beverley. Maternity cases go to Fulford, Westow, Driffield and Beverley.

### National Assistance Act, 1948

It has not been necessary to take any action under Section 47 of this Act during the year.

### Common Lodging Houses

There are no common lodging houses within the area.

SECTION 2

*[Handwritten signature]*

To the Chairman and Members of the  
Rural District Council of Pocklington.

Mr. Chairman, Ladies and Gentlemen,

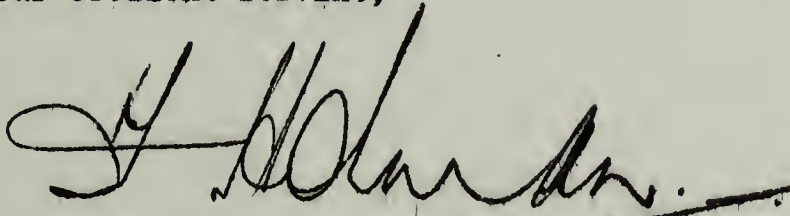

I have the honour to present my annual report on the public health circumstances of the District, and of the work carried out by my Department during the year ended 31st December, 1969.

There were no staff changes during the year.

I should like to place on record my appreciation for the ready assistance my staff and other Officers have given me, and to the Members of the Council for their support.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient servant,

A handwritten signature in dark ink, appearing to be 'J. H. ...', written in a cursive style.

Chief Public Health Inspector.

### WATER SUPPLY

The supply and distribution of water supplied within the Rural District is controlled by the East Yorkshire (Wolds Area) Water Board and the following details and figures are given through the co-operation of the Engineer to the Board, Mr. H. Ackroyd, whose ready assistance is acknowledged.

The quality of water supplied in the area has been good, only occasionally have any bad samples been reported and these have been due mainly to pollution at the source. All water in the area is chlorinated before passing into supply.

Pocklington Rural District Council's area receives water from five sources which are listed below. From each source a bacteriological examination of raw water is taken once a fortnight and a bacteriological examination of treated water before passing into a supply is taken every week.

The following table is the results of Bacteriological Examination for twelve months ending 31st December, 1969.

Analysis of samples of water:-

Source	No. of samples taken		Satisfactory		Unsatisfactory	
	Raw at Source	Treated in Distribution	Raw	Treated	Raw	Treated
Etton	15	65	15	65	-	-
Market Weighton	25	34	25	34	-	-
Millington	37	49	35	47	2	2
Warter	24	63	24	63	-	-
Kirby Underdale	35	57	33	53	2	4

Chemical analysis from each source in the area show the water to be of satisfactory quality. An example is given below:

Spring Water Millington

pH Value	7.2
Free Carbon Dioxide	p.p.m.
	8.0
Free Ammonia as N	0.008
Albumenoid Ammonia as N	0.002
Nitrogen as Nitrates	4.0
Nitrogen as Nitrites	nil
Chlorides as Cl	16.0
Alkalinity as CaCO <sub>3</sub>	125.0
Permanganate figure (N/80 hours)	0.100
Total Solids	252.0
Calcium as Ca	63.0
Magnesium as Mg	1.0
Sodium as Na	18.5
Carbonates as CO <sub>3</sub>	75.0
Sulphates as SO <sub>4</sub>	23.0
Nitrates as NO <sub>3</sub>	17.7
Temporary Hardness	125.0
Permanent Hardness	33.0

No Plumbo solvent action is apparent in the area.

If contamination is suspected chlorine is increased.

The Parishes with houses supplied by standpipes are given below:-

Parish	No. of Houses supplied by Standpipes.
Bishop Wilton	5
Huggate	10
TOTAL	15

Details of the Parishes with Population Figures are given below

POPULATION AND ACREAGE

Parish	Estimated Population	Acreage
Allerthorpe	175	2,393
Barnby Moor	585	2,528
Bielby	150	1,738
Bishop Wilton	475	5,465
Bugthorpe	170	1,915
Catton	275	3,030
Cottingham	280	2,466
Everingham	300	4,107
Fangfoss	300	2,257
Full Sutton	110	896
Goodmanham	230	5,028
Hayton	275	4,277
Huggate	290	7,007
Kirby Underdale	185	5,272

Seaton Ross	350	5,427
Shiptonthorpe	380	1,475
Skirpenbeck	125	1,645
South Cliffe	150	3,495
Stamford Bridge	900	1,147
Sutton on Derwent	320	3,670
Thornton	160	2,327
Warter	290	7,880
Wilberfoss	690	3,187
Yapham	165	1,888

### REFUSE COLLECTION AND DISPOSAL.

The system of household refuse collection embodies a weekly collection throughout the District and in the built-up communities collections are made from the rear of each property but in the outlying areas collection is made from the kerbside. During the previous year the Council had given serious consideration to the introduction of a paper sack system but it was deferred mainly on economic grounds. The matter was revived when estimates for the year were considered and a scheme was formulated to commence on the 1st June within the Rural District as a whole. It was anticipated that there could be teething troubles with the introduction of a completely new system but it was quickly evident that the new method was satisfactory to all concerned and there was a noted improvement in the working conditions of the collectors. The success of this new venture prompted the responsible Committee to continue its working in connection with refuse disposal which is a permanent thought for improvement. The tip is in private ownership and the terms for tipping were negotiated and put into operation the previous year. Despite the fact that tipping was taking place quite successfully a request from a neighbouring Authority regarding joint action in mechanical disposal was considered but only in very vague form.

## SEWERAGE PURIFICATION AND DISPOSAL.

Capital work during the year was confined to the completion of the Southern Area Group Scheme which was novel insofar as it was the first occasion in the country whereby sewers had been laid to gradient by machine and it is very pleasing to record that except for the odd minor mishap the installation of the sewers was completed satisfactorily. The outcome of this scheme was that a further six villages were served with sewers and a proper disposal system for the first time.

At the end of the previous year there had been an informal hearing by the Ministry regarding an extension to the Pocklington Sewage Works and approval was eventually given for part installation of the proposals and this was confined to the introduction of a sludge treatment plant. The Council was able to give approval to a tender for the equipment to be installed therein but tenders had not been received for the Civil Engineering work on site although it was anticipated that work could begin early in the new year.

The most important matter regarding sewer installations was related to a scheme embodying the villages in the northern area of the District together with provision for a proposed new prison at Full Sutton on the former airfield site. Consideration was given to alternative proposals formulated by the Consulting Engineer and a scheme was eventually chosen in principle but its final adoption did not come about because of the uncertainty of the siting of the prison.

The impact of increased housing development in Wilberfoss necessitated the installation of a surface water sewer in the Storking Lane area and this work was successfully completed.

During the year consideration was given by the Council to increased private housing development in Market Weighton close to the central area and the Engineer submitted a report showing the changes that would be necessary in the present system to eventually meet the demands made on the sewerage system by the housing development as a whole. This report was accepted in principle so that the pattern of improvement could be related to the sewerage requirements for private housing development.

The following is a list of the disposal systems and sewers available:

<u>Village</u>	<u>Sewers</u>	<u>Pumping Stations</u>	<u>Disposal Works</u>

## HOUSING.

The Housing Programme for the year was as follows:-

Pocklington. 6 one bedroomed flats;  
18 two bedroomed flats.

These figures relate to a housing re-development in the Chapmangate-Church Lane area of Pocklington which had commenced early the previous year and the Contract was concluded in the Spring. No other programme of house building was prepared but a decision had been taken previously regarding the provision of a Welfare scheme in Pocklington in collaboration with the County Council who had erected an aged persons home immediately alongside the proposed site. Despite numerous interviews with Ministry etc. the scheme was delayed but it was hoped that tenders would be received early in 1970 for commencement during the year.

The question of provision of future welfare schemes was uppermost in the Council's mind and with a view to a further extension of the scheme at King's Garth, Stamford Bridge, neighbouring land was purchased together with several sub-standard cottages known as Dales Terrace but only the preliminaries regarding construction were investigated during the year.

The County Planning Officer had prepared a report the previous year on the future development of Market Weighton and when this report was considered alongside a report on housing conditions compiled by my Department it was decided to consider the redevelopment of an area of land known as Finkle Street but only preliminary investigations regarding ownerships etc. were carried out with no thought of an immediate commencement of redevelopment proposals.

The Council gave full consideration to a report regarding the future of the prefabricated aluminium bungalows in the larger communities of Pocklington and Market Weighton but the Ministry expressed the view that the site should be cleared for these bungalows were erected purely as a temporary expedient without giving due recognition to layout etc. and layout should be given major consideration in any proposals for permanent dwellings. Arising out of this observation a layout was prepared in collaboration with the County Planning Officer but it was resolved that no further action be taken meantime.

Consideration was given to an exercise whereby the Council would utilise land in its possession at Stamford Bridge by providing roads and services and selling off plots for use by private individuals who would wish to erect dwellings of their own design utilising the builder of their choice. No final decision was reached on this proposal.

The policy of surveying Parishes to ascertain housing conditions was continued and in Pocklington Parish the main feature arising out of this survey was that out of a total of 1,269 dwellings in the Parish as a whole there were only 105 dwellings short of one or more amenity and were considered to be of a type suitable for improvement with the aid of grants.

# HOUSING

Since 1945, 1163 houses of the following types have been built by the Council:

Traditional Brick Houses.....	1010
Airey Prefabricated Houses.....	100
Swedish Timber Houses.....	8
Temporary Houses, Aluminium.....	45
